

Ilias NAOUI

Student in 3th year in computer science

0777921314 | iliasna2004@gmail.com | Hay sidi ahmed daoui rue 01 bis N° 12 Fkih BEN SALAH

EXPERIENCES

Introductory Internship

6-2023 - 7-2023

Regional Office for the Development of Tadla, Fkih BEN SALAH

I built a desktop application using Java for HR management in recruitment, enabling HR to efficiently manage job postings, candidate applications, and recruitment processes.

End of studies intership

4-2024 - 6-2024

Training edge consulting, BENI MLLAL

During this internship, I built an app using Spring Boot and React to manage invoices, allowing users to create, track, and update invoices seamlessly. ■

Education

High school Graduation - Physical and chemistry science - french option

09-2019 -
07-2022

Elkindi high school, Fkih BEN SALAH

I graduated from high school with a focus on Physical and Chemistry Sciences, where I developed a strong foundation in scientific principles and problem-solving, which later fueled my interest in computer engineering and data science ■

University Diploma of Technology in computer engineering

10-2022 -
7-2024

High school of technology, Fkih BEN SALAH

I completed my DUT in Computer Engineering at EST FBS, where I gained practical and theoretical knowledge in areas like programming, networks, and systems, laying the groundwork for my further studies and career in technology ■

Bachelor's Degree of Excellence in information systems and artificial intelligence

10-2024 -
NOW

Multidisciplinary Faculty of khouribga, Khouribga

In Information Systems and AI, we explore how to build and manage data systems while diving into AI concepts like machine learning. It's about using tech ■ h to tackle real-world challenges. We combine computer science with innovative problem-solving techniques.
